

Measuring the World

By Daniel Kehlmann

Quercus Publishing. Paperback. Book Condition: new. BRAND NEW, Measuring the World, Daniel Kehlmann, At the end of the eighteenth century, two brilliant and eccentric young scientists set out to measure the world. Alexander von Humboldt swashbuckled his way across the globe: navigating ocean and jungle, eating with cannibals, swimming with electric eels, lowering himself into volcanoes and scaling the highest mountain known to man. Carl Friedrich Gauss, on the other hand, stayed at home, using the power of thought to battle his way into exotic mathematical realms and the landmark realization that space is curved. Measuring the World brings these two geniuses to life, capturing their balancing act between loneliness and love, absurdity and greatness, failure and success.
