*This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It has been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.*

LAP Lambert Acad. Publ. Jun 2010, 2010. Taschenbuch. Book Condition: Neu. 220x150x10 mm. This item is printed on demand - Print on Demand Neuware - The study Models of Bilingual education focuses on the application of dual-medium and parallel-medium instruction in two historically disadvantaged schools in the Western Cape. It tested two assumptions: (1) that parallel-medium teaching in practice uses only one language of learning and teaching (LoLT) and therefore leads to monolingual classroom practice; and (2) that dual-medium teaching offers the best route to bilingualism but in practice it is applied haphazardly, leading to the loss of much pedagogical and language learning benefits. The study, based on a Master's dissertation completed at the University of the Western Cape (South Africa), questions the very nature of implementing bilingual education at the two historically disadvantaged schools, in the context of post-apartheid South Africa. 164 pp. Englisch.
