Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Preliminary Study in Corrective Speech This study presents in a practical manner a brief analysis of some common speech defects among young children, with remedial suggestions in the form of special exercises. A more detailed account of consecutive work with two stutterers shows the significance of nutrition, orthodontic treatment, environment, mental attitude, intellectual status and systematic training. No attempt has been made to give an anatomical description of the speech organs or an exhaustive treatment of the causes of speech defects. The selected references are limited to those bearing directly on the practical problems of corrective speech. This monograph is a portion of a dissertation presented by the writer in partial fulfillment of requirements for the degree of Master of Arts in child welfare. Miss Stinchfield s work has been made possible through the cor operation of the divisions of the Research Station, the Department of Psychology, the Colleges of Medicine, Dentistry and Education, and the Department of Public Speaking. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
