The Age of Louis XIV is the biography of a period (1648 1715) that Spengler considered the apex of modern European civilization. Some centuries hence, Frederick the Great correctly predicted to Voltaire, they will translate the good authors of the age of Pericles and Augustus. Those authors are lovingly treated here: Pascal, Racine, and Boileau, Madame de Sevigne, Madame de la Fayette, and above all the philosopher-dramatist Moliere, who so memorably exposed the vices and hypocrisies of the age. Central to the book is the Sun King himself, Louis XIV. Louis XIV ruled France for over seventy years, longer than almost any European ruler in history. He is the subject of a character study that runs through seven chapters, revealing the flesh and blood beneath the purple and the crown. He is seen at his worst in his struggle with Jansenists and Huguenots, at his best in his patronage of literature and art, and at his most human in his love affairs with Henrietta Anne of Orleans, Louise de La Valliere, Madame de Montespan, and Madame de Maintenon. From France the narrative passes to the Netherlands, and after pausing to examine the domestic idylls of Vermeer, shows the Dutch opening their dikes to save their land from Louis XIV and sending William of Orange to become king of England and a leader of the European alliance against Louis hegemony. In England we contemplate the heyday of virtue under the Puritans and study the strange character of Cromwell. We see Milton's passionate career as part of the vain effort to prevent the Stuart Restoration. We find Charles II, the Merry Monarch, with more manners than morals, attend boisterous Restoration plays; we skim the...
