paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pub Date: 2012 Pages: Guo Qian. Gao Wei Publisher: China Railway Publishing House secondary vocational schools mold manufacturing technology professional planning materials: mold CAD \ CAM technology training by a number of selected cases on the CAD / CAM technology in mechanical design - especially in the field of mold design and manufacturing applications. The book includes parts of the design. assembly design and simulation. engineering drawings. design and dimensions. the mold cavity design. automatic programming processing. Readers can gradually mastered by the shallow depth of the method of operation of Pro / ENGINEER Mastercam typical CAD / CAM software. Secondary vocational schools mold manufacturing technology professional planning materials: the mold CAD \ CAM technology training applicable to certain mechanical drawing based readers. suitable for use as a mold design and manufacturing. computer-aided design professional materials. also can be used as engaged in mold design and manufacture engineers self-counseling book. Book training cases for other similar CAD / CAM software to learn a certain significance. Contents: Project Pro / ENGINEER software tasks described in a Pro / E...

### Reviews

*The ideal ebook i possibly study. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.*
