

The Manufacture of Sulphuric Acid in the United States Volume 178-184 (Paperback)

By Arthur Edward Wells

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1920 edition. Excerpt: .dioxide and about 9 per cent oxygen, the rest being nitrogen and water vapor; the gases from a brimstone burner will usually have a sulphur dioxide content of 8.0 to 8,5 per cent. Such a gas mixture will contain sufficient oxygen to oxidize the sulphur dioxide to sulphur trioxide and also provide the necessary excess of 5 per cent oxygen for satisfactorily working the chambers. CHAMBER CONSTRUCTION. As in the last 10 years several construction companies in this country have made a specialty of chamber-plant construction and have developed special types suitable for different conditions and localities, it is not necessary in a paper of this character to discuss the construction of the chambers beyond outlining briefly some of the fundamental principles that underlie all chamber construction. Chambers should always be placed at some elevation above ground level so that the bottoms are accessible...

Reviews

An exceptional pdf and the typeface utilized was fascinating to read through. It can be written in straightforward words and phrases instead of confusing. I am just quickly could possibly get a delight of looking at a written ebook.

-- Prof. Arlie Bogan

It is in a single of the best book. This is for those who state there had not been a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- Dr. Barney Robel Jr.
