

Skycar City: A Pre-emptive History

Filesize: 8.36 MB

Reviews

Here is the finest ebook i have got read until now. It really is simplistic but excitement within the 50 percent in the book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Lupe Connelly)

SKYCAR CITY: A PRE-EMPTIVE HISTORY

ActarD Inc. Paperback. Book Condition: new. BRAND NEW, Skycar City: A Pre-emptive History, Winy Maas, Grace La, MVRDV, From the 2006 Marcus Prize Studio at the University of Wisconsin-Milwaukee, Winy Maas of MVRDV presents the work of twelve students who explored the relationship between infrastructure, architecture, and urban form. This highly investigative studio pushed the physical and conceptual limits of given definitions of city, circulation, and program. Tested in two scenarios (one real in Tianjin, China and the other purely hypothetical) Maas and his students sever vehicular traffic flow from its traditional two-dimensional plane and then forecast the potentials of a new, hyper-volumetric city where given urban activity inflates to fully occupy all three-dimensions. Populated by 5 million inhabitants and rising 800 meters high, this new 'sky car city' is buzzing with the flows of goods and people, as they navigate the airways in several models of air-born vehicles, also designed by the students.
