

## Student Reports of Bullying and Cyber-Bullying: Results from the 2013 School Crime Supplement to the National Crime Victimization Survey (Paperback)

By United States Department of Education

Createspace Independent Publishing Platform, United States, 2016. Paperback. Book Condition: New. 279 x 216 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This document reports data from the 2013 School Crime Supplement (SCS) of the National Crime Victimization Survey (NCVS). The Web Tables show the extent to which students with different personal characteristics report bullying and cyber-bullying. Estimates include responses by student characteristics: student sex, race/ethnicity, grade, and household income. The U.S. Census Bureau (Census) appended additional data from the 2010-11 Common Core of Data (CCD) and the 2011-12 Private School Universe Survey (PSS) to generate tables showing the extent to which bullying and cyber-bullying are reported by students in schools with different characteristics. School characteristics examined are region; sector (public or private); locale; level; enrollment size; student-to-full-time-equivalent (FTE) teacher ratio; percentage of combined American Indian/Alaska Native, Asian/Native Hawaiian/Other Pacific Islander, Black/African American, Hispanic/Latino, and students of two or more races; and percentage of students eligible for free or reduced-priced lunch.
