Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Diabetes Mellitus: A System of Diets The art of prescribing diets in diabetes mellitus has distinctly outstripped the ability of the patient or average nurse to meet the situation. The result that only the minority of diabetics, favored by dietitians or a specific member of the household can indulge in varied and accurate diets measured in grams of proteins, fats and carbohydrates. In many hospitals the same condition holds true; those having large resources have a sufficient number of dietitians carry out the dietetic prescriptions properly while the majority rely usually very inadequately, food lists to meet the needs of the patient, system of diets has been designed with the object of allowing any patient without special training in dietetics, to carry out the proper rationing of diabetes mellitus. These diet lists have been in successful use in hospitals and clinics for several years. It is proposed to issue the individual pad form, so that they may be of more general use. The plan upon which diets depend was first published in the Medical Clinics of North...
