JAPAN: SUPER ECONOMIC POWER

DOWNLOAD

1998. Hardcover. Book Condition: New. 254 If two representative images of Japan devastated in World War II and Japan as today's economic giant are placed side by side, it would only elicit a surprise so intense as to approach skepticism. In terms of economic resurgence and reconstruction, Japan's feat in the post World War II era is probably more glorious, even than the erstwhile West Germany. The authors have adopted a multidimensional approach to study Japan's phenomenal economic growth. Significantly this book analyses the economic growth of Japan based on the ground reality in that country and not on the models of western industrialized countries. Through their incisive analysis, the authors show that Japan has modernized its economy by mobilizing its socio-economic energies in its own unique way and without following any western model. About The Author:- Kota Veukata Subba Rama Sarma, is Editor-in Chief of National Herald, New Delhi. V. D. Chopra, an Intellectual of many repute, is vice president of the International Institute for Asia Pacific Studies, New Delhi.
